About the Portal

We at North Valley Hospital Clinics believe that every patient should have easy, instant access to his or her health information at any time.

We are pleased to present this opportunity through the use of a secure internet portal. Using this portal, you will be able to access your health information online.

All you need to activate this service is a valid email address. You will then be able to access information from your visit, appointments, clinic health records, and more—all in one place!

Please contact your North Valley Clinic (Mon - Fri; 8:00 AM - 5:00 PM) with any questions about enabling the portal for your medical records.

Glacier Maternity: 406-752-8180
North Country Medical Clinic: 406-297-2438
North Valley Behavioral Health: 406-862-1030
North Valley Geriatric Specialty Services: 406-862-1030
North Valley Professional Center: 406-892-3208

A different kind of hospital. A different kind of care.
Using the System

STEP 1: During Registration, provide the clinic with a valid email address.

STEP 2: You will be provided with a printout which includes the Patient Portal website, your user ID and temporary password.

STEP 3: Enter the web address provided in your internet browser. You will be directed to the page below.

STEP 4: Enter your User ID and temporary password provided by the clinic at registration.

STEP 5: Once logged in, you will be asked to verify your identification by entering either your date of birth or phone number.

STEP 6: Next, you will be prompted to create a new password and create a security question and answer combination to allow for security during requests for password resets, etc.

STEP 7: At this point you will be prompted to read and accept the eClinicalWorks (the name of our electronic health records system) and Practice Consent forms. You will need to choose the tab titled Practice Consent Form to acknowledge you have read and accept.

STEP 8: Congratulations! Your account has now been activated.
